GOVERNOR'S VETO MESSAGE

November 20, 1987

To the Honorable Members of the Assembly:

I am vetoing **Assembly Bill 335** in its entirety. This bill, as passed by the Legislature, requires the State to bargain in good faith with regard to wages, hours and conditions of employment. In doing that, the bill expands the items subject to bargaining to include

- * The mission and goals of state agencies;
- * Policies and practices of the civil service merit system relating to original appointments and promotions, classification, examinations, and certification of applicants;
- * Appointments and policies with respect to probationary periods.

The bill in its present form contains fundamental flaws which, if enacted into law, would create a system of co-determination in the management of state government by state employees relative to the above enumerated subjects, which have been, and must remain, in the domain of the Legislature and the executive.

I do not support the concept of bargaining the fundamental tenets of the civil service merit system relating to recruitment, examination, appointment, certification of applicants, and probationary periods. Historically, these areas have been reserved within management's purview and have not been subject to collective bargaining. These are areas of public policy that reach deep into the roots of Wisconsin's progressive government which should remain intact.

Respectfully submitted,
TOMMY G. THOMPSON
Governor

GOVERNOR'S VETO MESSAGE

November 25, 1987

To the Honorable Members of the Assembly:

I have approved **Assembly Bill 481** as Wisconsin Act 110 and deposited it in the Office of the Secretary of State. In approving the bill, I have also used my partial veto authority to remove an unnecessary administrative requirement.

AB 481 creates a waste tire recycling and removal program. I am pleased to sign the bill because it provides the means to clean-up waste tire dumps causing fire, health and safety problems. The bill also establishes a program which will encourage recycling and reuse of waste tires to avoid similar problems in the future. The use of a tire recovery fee is appropriate to the problem and charges users for cost of proper tire disposal.

I am vetoing in part section 6 of the bill to eliminate the requirement for the Department of Transportation to specify by administrative rule the proportion of recovered rubber that may be used in highway improvements. Using administrative rules for materials specification is unnecessary and inconsistent with current practice. The department will comply with the intent of the bill by specifying highway materials standards without using the administrative rule process.

Respectfully submitted,
TOMMY G. THOMPSON
Governor
